JAPAN IS WAITING.

Is Insistent on Her Assumed Rights.

Oriental Say State Rights Are Not Their Concern in Any Way.

Reliance Is Placed on Treaty, Although Action Is Delayed Indefinitely.

Denver Finds It Necessary to Follow the Example of San Francisco.

(BY DIRECT WIRE TO THE TIMES.)

YACOMA, Feb. 6.—[Exclusive Dispatch.] In the Oriental mail containing a translation of the statement in the Jiji Shimpō that is a clarified statement of the attitude of the Japanese government.

The Jiji Shimpō says in view of recent reports and publications, the government has considered it advisable to invite the attention of Washington to three points.

First relative to the question raised in some quarters, namely: whether the Japanese are to be classified as Mongolians and thus to come within the purview of the California exclusion act.

Second point in this: It is true that the explicit reference contained in the treaty is to residential rights only, and that nothing is definitely stated as to the right of Japanese to obtain for their children the same educational privileges as those enjoyed by other residents.

In the third place it is observable that the question is raised with regard to relations existing between the several States of the Union and the Federal government.

At the same time, being fully convinced of the friendly and honorable intentions of that government, she does not wish to embarrass it in any way by importunity, and she is prepared to wait patiently until such machinery as the United States authorities desire to employ for the purposes of domestic accommodations shall have been set in motion.

The Jiji Shimpō is one of the most influential papers in Tokyo. It is independent in policy, sometimes sharply criticized, the government's policy and sometimes advocating it with equal order. It appears more nearly than any other paper published in the Japanese capital to represent the popular ideas on questions of public policy.

SUSPECT BINDER MOTIVE. "INDIGNANT" SURPRISE. (BY THE ASSOCIATED PRESS-F.M.) TOKYO, Feb. 7.—A report, reaching here from the United States to the effect that the Privy Council had met Tuesday to consider a dispatch from the Japanese government, here with great surprise and some indignation.

It is generally felt by the well-meaning that no care is too great at this moment, when alarmists are busy at work in America. The Associated Press is informed by the best authority that the matter submitted to the deliberation of the Privy Council last Tuesday was of an internal nature and had no relation to diplomatic affairs.

MINERS SLAY DIRECTORS. JAPANESE BREAK IN REVOLT. (BY DIRECT WIRE TO THE TIMES.) TOKYO, Feb. 6.—[Exclusive Dispatch.] Disturbances among thousands of laborers in the Ashio copper mines near Nikko have been renewed.

NO DANGER OF WAR JUST NOW.

JAPS ARE SWEET-HEADED, SAYS GEN. BRAGG.

Trouble May Come in Time, but Is Not Imminent Yet—Have a Heavy War Debt to Pay Off, and No Visible Resources to Draw From—Chickens Are Better.

(BY THE ASSOCIATED PRESS-F.M.) MILWAUKEE (Wis.) Feb. 6.—An Evening Wisconsin special from Fond du Lac, Wis., says:

Gen. Edw. B. Bragg, former United States Consul-General at Hongkong, today said that there was no danger of war between the United States and Japan.

"A more insinuating, well-headed class of people than the Japanese are at present is hard to find," said the general. "This is due largely to their recent victory over the Russians."

"While a break between Japan and the United States may come in time, the danger is not imminent. The Japanese have a heavy war debt to pay off, and, although it is probable that they could put a large army in the field, they have no visible resources to draw from."

"The Japanese merchants suddenly discovered that they could compete with American merchants. It appeared almost to me during the boycott of American goods in China was caused largely by the Japanese."

"The recent troubles in San Francisco should be settled by the State of California," said Gen. Bragg. "I have always been opposed to any exclusion laws," said he, "but in an event like this, the opinion that an effort be made to settle the matter by a nation to interfere would be violating the Constitution."

PLANS FOUR NEW LINERS. COMPLETES TWO WITHIN YEAR. (BY DIRECT WIRE TO THE TIMES.) YACOMA, Feb. 6.—[Exclusive Dispatch.] Four new liners for the Pacific Orientals are to be built this year by Nippon Yusen Kaisha, according to the statement of Capt. Moses, master of the steamship Tango Maru, local representative of the company.

The liners are to be Nanryo Maru, Soyo Maru, Chikugo Maru and Chikamen Maru. First two are sister ships to New Hittachi Maru, recently launched from Mitsui Bishi ship yards and the largest and finest of the company's fleet.

They are to be built in the Mitsui Bishi yards, and work on at least two of them will be complete before the end of the year. The total tonnage of the four vessels will be 35,000, making them the largest in the Nippon fleet with the exception of the Hittachi. Sailing every two weeks during 1907, for Yokohama, Kobe, Shanghai, Hongkong, Manila, Cebu, Singapore, and other ports.

NEGOTIATIONS ARE BEGUN. CONFERENCE AT WASHINGTON. (BY DIRECT WIRE TO THE TIMES.) TOKYO, Feb. 6.—[Exclusive Dispatch.] It has become known here that Washington authorities are in consultation with the Tokyo officials concerning the transmission to California of Japanese emigrants from Hawaii.

Emigration to Hawaii from Japan has been easier than direct immigration to California. It is proposed to make the restrictions put on as a matter of courtesy.

Get Los Angeles View. WASHINGTON, Feb. 6.—The President today received a telegraphic copy of a resolution adopted yesterday by the Los Angeles Chamber of Commerce upon the Japanese school question which expresses the belief that the public sentiment of California, especially of the southern part, upon the question of the exclusion of the Japanese from the general public school system of the State has been to some extent misrepresented, and is largely misunderstood.

OFFICERS WOUNDED IN MUTINY ON CRUISER.

Bluejacket on Tennessee Twice Shoots Ship's Master-at-Arms.

Climax of Long Feud Comes at the League Island Navy Yard—Victim of Two Bullets Lies in United States Hospital in Critical Condition—Another Is Slightly Wounded.

(BY DIRECT WIRE TO THE TIMES.) PHILADELPHIA (Pa.) Feb. 6.—[Exclusive Dispatch.] Mutiny and possibly murder on board the United States cruiser Tennessee was the climax this morning of a long feud between the ship's bluejackets and its chief master-at-arms, James A. Douglas.

The man who did the shooting—a bluejacket named Henry Burke—was at once confined in arm-and-leg from in a temporary canvas prison erected on the ship's deck.

A police patrol wagon and ambulance of the Methodist Hospital was hurried to the League Island Navy Yard, where the Tennessee is lying, and Douglas was taken to the United States Naval Hospital in Gray's Ferry Road.

One bullet lodged in his head, the other in the left hip. Neither has been removed. His condition tonight was serious.

SHOT THROUGH WRIST. In the desperate hand-to-hand struggle which preceded the probable fatal shooting of Douglas, Burke was shot through the wrist and William McCool, the ship's assistant master-at-arms, got a glancing bullet wound on the chin, and his face was burned by powder.

Every official source of information on the warship in the yard and in the naval hospital was sealed immediately after the accident.

The Tennessee, man-of-war on which yesterday's mutiny occurred.

Bluejackets and marines on the Tennessee, and other cruisers, were also given to understand that it would be well for them if they would follow the example of their superiors in keeping closed mouths.

The enlisted men refused to take the hint, and the stories they told are all in defense of Burke, and a bitter criticism of the harsh treatment to which, according to their stories, they have been subjected by Douglas and other petty officers.

TREATED LIKE DOGS. "They treated us like dogs rather than like human beings," said one of the men today.

Burke felt as many others of us did, that he would just as soon be killed as live under the petty persecutions to which we have been subjected.

SAFETY BUYS MINE. BOSTON (Mass.) Feb. 6.—[Exclusive Dispatch.] San Toy Mining Company owned by Charles M. Schwab, has purchased Septentrion, Quin Sabo and Pernam mines all in St. Eulalie camp, Chihuahua. Price said to be over \$100,000.

Therefore His Wife Demands a Divorce, Declaring Her Hubby Lacked Necessary Judgment to Estimate Commercial Value of a Pair of Deuces.

STATE THANKS RACE-BUILDER.

OMAHA (Nebr.) Feb. 6.—[Exclusive Dispatch.] It is doubtful if any one member of the Nebraska Legislature has done more along the line of Roosevelt reform than has Representative C. L. Francis of Syracuse, Olopa county.

Francis claims the distinction of having more children than any other member of the present Legislature. He has fifteen. In recognition of this, the Legislature has drafted resolutions of thanks to Mr. and Mrs. Francis for their strong showing in behalf of "anti-race suicide," and these resolutions have been sent to Gov. Sheldon and the President.

EXPULSED SENATOR; HE TOOK BRIBE.

COLORADO OUSTS MORGAN AFTER INVESTIGATION.

Expulsion is Based on Testimony of Accused Himself Who Admits That in Adams-Peabody Contest He Took \$750 to Vote for Former. He Is Absent During Vote.

DENVER (Colo.) Feb. 6.—Senator Richard W. Morgan of Boulder county, a Republican, was expelled from the State Senate this afternoon by a vote of 23 to 1. His expulsion was recommended by a majority of a special committee of the Senate which found him guilty of having accepted a bribe.

The statement made to the Senate in March, 1905, by Morgan himself, concerning \$750 which he declared, had been given him by James W. Herbert and Daniel Sullivan in consideration of his promise to vote for Alva Adams.

HE PLAYED NOT "GOOD" POKER.

BACKED AN "ACE FULL" AGAINST FOUR QUEENS.

When the vote on the contest was taken Morgan voted for Peabody. Morgan failed to appear before the investigating committee when summoned and was not in the Senate today when his expulsion was decided upon.

Therefore His Wife Demands a Divorce, Declaring Her Hubby Lacked Necessary Judgment to Estimate Commercial Value of a Pair of Deuces.

INDIANAPOLIS (Ind.) Feb. 6.—[Exclusive Dispatch.] Alleging that her husband, Oscar Miller, did not know the commercial value of a pair of deuces when his opponent held two pairs of queens, Flora E. Miller of Kokomo, Ind., today filed suit for divorce.

Her complaint was unique owing to the allegations it contained. She says that her husband abandoned her so long ago that she can't remember when he left. She claims that during their married life he made it a business of "boosting the bank accounts of barkeepers," and that he used his fists freely in enforcing his right to boss his own home.

PRIEST MARRIES BROTHER. ST. LOUIS (Mo.) Feb. 6.—[Exclusive Dispatch.] Rev. Father Emil Girardi of Pasadena, today united in wedlock his brother, Joseph Girardi of Jerseyville, Ill., and Miss Eleanor Colligan of Trenton, Ill. The scene of the ceremony was the Trenton (Ill.) Catholic Church. The couple will reside on the groom's farm, ten miles south of Jerseyville.

DELMAS A MATCH.

California Lawyer Aids Thaw.

Wit Against Wit, He and Jerome Battle in the New York Forum.

Gains Admission of Testimony Stubbornly Opposed by Prosecution.

District Attorney Gets Laugh in Court—Day Goes to the Defense.

(BY DIRECT WIRE TO THE TIMES.) COUNSEL for defense in the trial of Harry K. Thaw, for the murder of Stanford White, in New York, scored repeated victories yesterday. The clever work of the California lawyer, Delmas, in the manipulation of the case, and in his examination of witnesses, from whom he elicited considerable important testimony which Jerome sought hard to suppress, evinced him thoroughly able to combat with the shrewdness of Jerome; and wit against wit, the struggle for vantage continued, with the close of the day's session revealing the score in favor of the defense.

There were several amusing incidents yesterday, and as a result of the District Attorney's sharp questioning he brought upon himself one good joke and general laugh at his own expense.

Either Mrs. William Thaw or Evelyn Nesbit Thaw will be placed upon the stand this morning.

NEW YORK, Feb. 6.—[Exclusive Dispatch.] Delmas, California lawyer, took control today of the defense of Harry K. Thaw, and at the close of a day that had brought to the defendant more cheer than any that had preceded it, the California lawyer announced that either Thaw's mother or his wife, Evelyn Nesbit Thaw, would be the first witness to take the stand tomorrow morning.

It had been a day of several signal victories for the defendant's cause, and of some reverses; but it had been one in marked contrast with the utter rout of the Thaw forces that marked the proceedings of yesterday, when Attorney Gleason was in charge.

Delmas, the California lawyer, has shown himself an attorney able to cope with the best. He succeeded in placing in evidence the remarkable story of Benjamin Boman, who narrated an alleged conversation with Stanford White, in the course of which White had displayed a revolver to the witness at the stage entrance of the Madison Square Theater, and had threatened to shoot Harry Thaw before daylight.

The witness, four or five days later, had met Thaw in Fifth avenue and had warned him of his danger. Jerome fought vainly to exclude this evidence, and afterward to discredit it, but it was admitted on the ground that the defendant's counsel, in his opening speech, had announced that advantage would be taken, not only of the plea of hereditary insanity, but also of that of self-defense or any other legal plea coming under the statutes.

It thus was made evident that the defendant's case will rest on a variety of contentions, including the assertion that he had come to believe his life in danger.

Thomas McCaleb was the most important witness of the afternoon. He was one of the party who dined in the Cafe Martin with Harry Thaw and his wife on the evening of June 25, before Thaw shot Stanford White to death.

McCaleb told in dramatic style of the shooting, as he witnessed it. He expressed the opinion that Thaw was irrational at the time and reiterated the testimony of other witnesses that the defendant, after shooting White, had kissed his wife fondly and said to her: "I have saved your life."

In the renewed effort to get on the record evidence of hereditary insanity, Delmas encountered the same stumbling block Gleason had met, the attempt for the time being a failure.

SAYS HE WILL POST FORFEIT.

Brooklyn Tommy Sullivan
Keeps on Gassing.

Manager Attempts to Dic-
tate to McCarrey.

Jeffries Gives Squires Little
Thought.

(BY DIRECT WIRE TO THE TIMES)
ST. LOUIS, Feb. 6.—(Exclusive Dis-
patch.) Jack Sullivan, who manages
"Brooklyn Tommy" Sullivan, today an-
nounced that he would deposit \$1000 to
insure Sullivan's presence in the fight
with Attell in March. Sullivan made
the statement after being informed
that Manager McCarrey wired that At-
tell had agreed to meet Sullivan at 128
ringside.

"That practically clinches our man,"
said Manager Sullivan, "and I will post
the money to show our faith in the
matter. I do not think there will be
much trouble in getting a \$10,000
purse for the event, as a match be-
tween Attell and Sullivan is the best
card that the Los Angeles club could
book."

"Brooklyn Tommy" was as frisky as
a twin lamb on a May morning when
he received word that Attell would
take him on at 128.
"I will lick Attell sure," said Sullivan.
"I want all my friends in the Mas-
sachusetts Athletic Club and elsewhere
to get a chunk of money down on me.
Attell is one fighter I have something
on. The Ten knows it, too, and he is
afraid of me. I will be ready to
fight March 1."

McCarrey is Manager.
NEEDS NO DICTATION.

Manager McCarrey reiterates that he
will not offer a purse for the Attell-
Sullivan battle. He says that Manager
Jack Sullivan is not the one to judge
as to what is the best card for the
club.

"I am running my own business and
do not need any one to tell me what
is best for the club," said Sullivan.
"I am the one to decide on the card
and the amount expressed by McCarrey."

Followers of the fight game here be-
lieve that Sullivan is a shrewd man
and a whole lot of dictating for a
manager. It is up to Attell to arrange
the business details, and Sullivan
should be glad enough to accept the
offer, as he is a very tough customer.
Jack Sullivan had to go some to
save a draw when he met Palmer in
England.

Palmer is Coming.
Jack Palmer, the English light
heavyweight, is expected to reach
America Saturday. He hopes to get on
a match with Jack O'Brien or any of
the other big fellows. Palmer lost to
Gunnar Mott through a foul, but it is
said that he is a very tough customer.
Jack Sullivan had to go some to
save a draw when he met Palmer in
England.

Jeffries Don't Know.
"I don't know anything about Squires
coming to this country, and have not
thought of him lately," said Champion
Jack Jeffries, last night, when asked
about Squires' coming.

"Would I fight him?" repeated Jeff
in a surprised tone. "Well, I guess I
would if I could get enough money
for it."

"How much do you want? A \$50,000
purse?"
"Well, you know what I said before."
"Yes, and that means that you want
\$100,000 for your share of the purse."
"Yes, that's it," replied the champion
fighter, pig, and chicken cultivator.

Just what Squires is coming for is
not definitely known, but the general
public. If he has a match on with
some one, the sports will have to be
shown. Burns apparently has nothing
in it except his fight with Jack O'Brien,
and there is nothing definite
about Jeffries, as Jim stated last
night. It is not likely that Jeff
will fight O'Brien, for Jack has
his fight with Burns scheduled for May,
and, according to London advice, has
made a deposit in England for a fight
with Garner Moir.

Owing to the fact that O'Brien failed
to go to Australia to fight Squires be-
cause he got a match here with Burns,
and also to the fact that the match
with Jeff failed through Squires' evi-
dence to imagine that every one over-
here is afraid of him. What a bunch
of surprise parties he'll fall into when
he reaches Southern California and
sees some of the finest!

Another Prelim.
Young McGovern will give away
weight again when he meets "Frisco"
Kid Parker in a preliminary to the
Jack (Twin) Sullivan battle. The boys
met at catch weights, and as McGovern
only weighs 150 pounds, Parker has
about ten pounds the best of him.
Parker is a prodigy of Eddie Manney.

Squires Coming Over.
SAN FRANCISCO, Feb. 6.—(Accord-
ing to cable received today from
Australia.) Bill Squires, the champion
heavyweight boxer of Australia, will
leave there in the steamer Ventura
for this city accompanied by his back-
er. In the cable he challenges all the
heavyweights in America and says he
will post his forfeit upon arrival. The
Ventura will arrive in San Francisco
about March 1.

GANS-LEWIS
MATCH OFF.

(BY DIRECT WIRE TO THE TIMES)
DENVER, Colo., Feb. 6.—(Exclu-
sive Dispatch.) E. W. Dick-
erson, manager of Harry Lewis,
tonight repudiated the articles of
agreement signed at Philadelphia
for a fight for the light-
weight championship of the
world between Lewis and Gans.
Dickerson stated that J. Res-
terman, father of Lewis, has no
authority to sign articles, and
that Lewis may not fight Gans
unless he gets a better weight
agreement and a better division
of the purse. Dickerson signed
his son to fight at 125 pounds,
the purse division to be 75 and
25 per cent.

The Pope-Hartford car that is matched against an Oldsmobile for a race from Los Angeles to San Francisco for \$5000 a side, and the men who will handle it in the race. From left to right they are: Harmon D. Ryus, who accepted the challenge; Bert Dingley, a well known driver who will handle the wheel the major part of the way; George Adair, who knows all the roads and will play guide-book; and Billy Russ, who will relieve Dingley at the throttle.

CONFIDENT OF WINNING RACE.

BERT DINGLEY HAS RECORD FOR
FAST DRIVING.

Took Part in Vanderbilt Cup Race
and Made Excellent Showing—Re-
served Mark to Santa Barbara.
Capt. Ryus Has Selected Leon T.
Shettler as Judge.

"Win? Of course we'll win. If we
don't, I'll have to work six months for
nothing. That's how I feel about it."
So says Bert Dingley, who will be
chief driver of the Pope-Hartford in
the challenge race against the Oldsmobile
from San Francisco. Dingley is
prepared to do some driving, no matter
what condition the roads are in.
He had a large part in establishing the
present record from Los Angeles to
Santa Barbara, which stands at three
hours and fifty-seven minutes. That
record was set with an Oldsmobile,
but Dingley is prepared to take his new
love, the Pope-Hartford, and beat his
old love to a frazzle if there is any way
to do it.

Dingley has not only done country-
auto racing, but truck work and
road racing as well, and he is one of
the few exceptions to the rule that a
truck driver is unfitted for road racing.
Last year he was mechanic to Herbert
Lytle when Lytle drove the Pope-Har-
tford in the Vanderbilt Cup elimination
trial, and there was universal disap-
pointment in Los Angeles that he was
not behind the wheel of the race.
Many felt that he would have done
more with the car than Lytle did, al-
though Lytle has a good reputation as
a speedy driver.

In the 1905 Vanderbilt Cup race Dingley
drove the sixty-horse-power Pope-
Hartford, and made an excellent showing
for the first two rounds. In the third
round a cylinder cracked, and Dingley
walked about a mile for a new, re-
turned and cut the water connections,
plugged the cylinder so that the others
could get their water supply all right,
and plucked continued after a short
stop, almost without a universal disap-
pointment in Los Angeles that he was
not behind the wheel of the race.
Many felt that he would have done
more with the car than Lytle did, al-
though Lytle has a good reputation as
a speedy driver.

With him as relay will go Billy
Russ, who had lost the rough coun-
try variety. Russ planned and
carried out the raid on the Los Ange-
les-Seattle race, and Dingley did all the driving on that run.
The third man in the car will be George
Adair, who knows the roads like a
map, and has a reputation as a general
handy man in any emergency. Who
the fourth man will be has not been
decided.

Ryus has selected Leon T. Shettler
as his member of the committee of ar-
rangements. Shettler is one of the old
stand-bys in the automobile game, and
has had a hand in as many road-races
as any other motorist on the Coast.
His last appearance in the role of race-
promoter was when he raced Ryus to
the top of Little Mt. Baldy, a contest
that will not soon be forgotten.

Mr. Shettler has sent the following
telegram, which makes it look as
though negotiations for the running of
the race would go through at a pretty
fast pace.
"B. F. Ryus, San Francisco:
"I am Ryus' representative. Name
yours and get busy. We need the
money."
"L. T. SHETTLER."

SANTA MONICA AHEAD.

Beach Bowlers Have an Easy Time
With Roberts and Lacey on Mor-
ley's Alleys.

Gilman and Silvers beat Roberts
and Lacey, last night, on Morley's al-
leys by 159 pins, giving them a lead of
122 pins on ten games played. Gilman
had high score and high average. The
third series will be rolled on North
Beach alleys, Santa Monica.

World's Non-Stop Record.

SEATTLE, Feb. 6.—(Exclusive Dis-
patch.) F. G. Plummer at noon today
brought a 1907 single-cylinder Cadil-
lac to the top of Mt. Rainier, having
driven 1000 miles in 71h. 22m. without stop-
ping his engine. This creates a new
world's non-stop record for a one-cyl-
inder car, continuous running. The
record formerly was 600 miles. The
test was carried on under trying cir-
cumstances, the streets being covered
with snow and mud, and the car being
driven over every hill that has ever
been traveled in the city by an auto-
mobile.

CONFIDENT OF WINNING RACE.

BERT DINGLEY HAS RECORD FOR
FAST DRIVING.

Took Part in Vanderbilt Cup Race
and Made Excellent Showing—Re-
served Mark to Santa Barbara.
Capt. Ryus Has Selected Leon T.
Shettler as Judge.

"Win? Of course we'll win. If we
don't, I'll have to work six months for
nothing. That's how I feel about it."
So says Bert Dingley, who will be
chief driver of the Pope-Hartford in
the challenge race against the Oldsmobile
from San Francisco. Dingley is
prepared to do some driving, no matter
what condition the roads are in.
He had a large part in establishing the
present record from Los Angeles to
Santa Barbara, which stands at three
hours and fifty-seven minutes. That
record was set with an Oldsmobile,
but Dingley is prepared to take his new
love, the Pope-Hartford, and beat his
old love to a frazzle if there is any way
to do it.

Dingley has not only done country-
auto racing, but truck work and
road racing as well, and he is one of
the few exceptions to the rule that a
truck driver is unfitted for road racing.
Last year he was mechanic to Herbert
Lytle when Lytle drove the Pope-Har-
tford in the Vanderbilt Cup elimination
trial, and there was universal disap-
pointment in Los Angeles that he was
not behind the wheel of the race.
Many felt that he would have done
more with the car than Lytle did, al-
though Lytle has a good reputation as
a speedy driver.

In the 1905 Vanderbilt Cup race Dingley
drove the sixty-horse-power Pope-
Hartford, and made an excellent showing
for the first two rounds. In the third
round a cylinder cracked, and Dingley
walked about a mile for a new, re-
turned and cut the water connections,
plugged the cylinder so that the others
could get their water supply all right,
and plucked continued after a short
stop, almost without a universal disap-
pointment in Los Angeles that he was
not behind the wheel of the race.
Many felt that he would have done
more with the car than Lytle did, al-
though Lytle has a good reputation as
a speedy driver.

With him as relay will go Billy
Russ, who had lost the rough coun-
try variety. Russ planned and
carried out the raid on the Los Ange-
les-Seattle race, and Dingley did all the driving on that run.
The third man in the car will be George
Adair, who knows the roads like a
map, and has a reputation as a general
handy man in any emergency. Who
the fourth man will be has not been
decided.

Ryus has selected Leon T. Shettler
as his member of the committee of ar-
rangements. Shettler is one of the old
stand-bys in the automobile game, and
has had a hand in as many road-races
as any other motorist on the Coast.
His last appearance in the role of race-
promoter was when he raced Ryus to
the top of Little Mt. Baldy, a contest
that will not soon be forgotten.

Mr. Shettler has sent the following
telegram, which makes it look as
though negotiations for the running of
the race would go through at a pretty
fast pace.
"B. F. Ryus, San Francisco:
"I am Ryus' representative. Name
yours and get busy. We need the
money."
"L. T. SHETTLER."

SANTA MONICA AHEAD.

Beach Bowlers Have an Easy Time
With Roberts and Lacey on Mor-
ley's Alleys.

Gilman and Silvers beat Roberts
and Lacey, last night, on Morley's al-
leys by 159 pins, giving them a lead of
122 pins on ten games played. Gilman
had high score and high average. The
third series will be rolled on North
Beach alleys, Santa Monica.

FOR S

[illegible][illegible]

The image is a vertical, high-contrast scan of a textured surface, likely a book cover or a piece of aged paper. A prominent vertical crease or fold line runs down the center, creating a deep shadow. The surface is covered in fine, horizontal lines and larger, irregular textures, suggesting a material like leather or heavy paper. The lighting is dramatic, with the left side being lighter and the right side being in deep shadow, emphasizing the three-dimensional quality of the texture. There are some small, dark spots and imperfections visible across the surface, particularly near the bottom and along the crease.

GET AWAY FROM THE FOGS

We might also say "Fogs"—for there are neither fogs nor frogs in our beautiful Glendale Valley View Tract, where the elevation is 700 feet—higher than any other section within the same distance from town. While the altitude is higher, prices are lower. Full sized lots from \$275 up to \$525. None higher, except a few corners.

Every lot level, covered with great, big grape vines, on graded and oiled streets—the \$350 and up lots have cement walks and curbs—all have electric light, water, building restrictions; in fact everything that goes to make a desirable home site and a good speculation.

Terms easy—monthly payments if desired. No interest, no taxes. Immediate possession.

This property is within two blocks of the car line. High school, bank, stores, etc. In one of the most prosperous suburbs of Los Angeles. Fare, by book, 73 cents; 15 minutes from Third street tunnel. Surrounded by beautiful homes.

Go out and see for yourself at our expense.

Free tickets at our office on application.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Kopka Concert.

Wesley Kopka and Heinrich von Stein will be heard in concert at the Municipal Auditorium tonight. An excellent program will be given.

Seven Pairs of Shoes.

A man was arrested yesterday while carrying seven pairs of shoes beneath his coat. He was charged with the theft of the shoes from the "American Hand Sewed Shoe Company." The prisoner refused to give either a name or an explanation. He is in the City Jail.

A Stainless Flag.

D. E. S. Chapman, the strenuous and eloquent champion of the Anti-Saloon League, will deliver a lecture, "A Stainless Flag," in the First Methodist Church on Thursday evening of next week. This is a lecture that Dr. Chapman has delivered all over the United States.

Kern River—All Stockholders in the

Kern River (Placer) Gold Mining Co. as well as interested investors are further notified that after the 15th inst. the shares of stock will be 25 cents, preliminary to a further advance. Applications for stock in the present prevailing rate of 10 cents are now being granted and certificates issued in return.

Patrolman Bruised.

Patrolman Earl Busse was badly bruised yesterday when he was struck by a motorcycle. He was riding at a good rate of speed when the wheels struck a wire cable near the corner of Broadway and Adams street. He was thrown high in the air and alighted heavily in the roadway. He was treated at the Receiving Hospital.

Gannon Not Killed.

It was reported in some of yesterday's papers that E. S. Gannon of this city had been instantly killed by falling off a wagon while going from a garage to Greenwater, Nev. Mr. Gannon is in the city and has not been away, but fears for the safety of his brother, Earl Gannon, who is believed to be on the way to the new mining fields.

Fellowship Dinner.

The Los Angeles Fellowship will give its annual dinner at the Hotel Normandie on Thursday evening. Reports will also be made from the different departments, and officers elected for the ensuing year. Guest addresses will be made by Mrs. C. M. Severance, Prof. Larkin, Mrs. Geste of Chicago, ex-Governor of California, and other persons.

Fellowship Dinner.

Dr. Freeman, the "Laird of Ingleside," who left a few months ago, on a trip around the world, writes under date of January 7, from London, that he will return home by way of India, Ceylon, China and Japan.

Men's League Election.

The Men's League of the First Congregational Church will hold its annual meeting tomorrow evening, when officers will be elected for the ensuing year, and an address will be delivered by A. C. Dodd, prohibition officer, concerning the work of the juvenile court. Thomas H. McConnell, Charles Ellis and C. E. Richards are appointed to a committee on nominations at the last meeting.

University Improvement.

A good program has been proposed for this evening by the University Improvement Club, which will meet at U.C. Frank G. Tyrrell has been secured and will give his lecture on "Civil Pride." (Retired) Col. Allen Allenworth, U.S.A. (retired) will assist in entertaining. Live committee reports relating to southwest improvement are to be made. These sessions are public, and all are invited.

N.E.A. Organization.

The executive committee of the N.E.A. will formally organize at 8 o'clock this afternoon, when members of the Chamber of Commerce, the Merchants and Manufacturers Association, the Board of Trade and the Board of Education will meet in rooms at the Chamber of Commerce to appoint chairmen of committees and map out a campaign for active work.

Princeton Banquet.

Tonight the Princeton Club and alumni of Old Nassau will give a banquet at the Hotel Normandie. The election of officers for the year will take place. The action of the club has been forewarned by the Committee on Nominations, in giving out their proposed report, nominating Jefferson Chandler for president, J. E. Montgomery, vice-president, A. A. Talmadge, secretary, J. P. Flint, treasurer; for directors, Mrs. Montgomery, Chandler, Brown, Parker and Morrison.

Seeking Each Other.

Patrick O'Keefe's two nieces, Lena and Jennie O'Keefe, are looking for Los Angeles for him while he is searching the city for them. The young women are supposed to be nearly penniless. O'Keefe came to the Central Station yesterday and told the officers that his address is No. 630 Clover street. Recently the two women came here from St. John, New Brunswick. O'Keefe gave the police a description of them and patrolmen were notified to look for them.

Samuel Dotson Dead.

Samuel Dotson, who was for fifteen years an inspector in the employ of the Santa Fe, and who is a brother of Mrs. R. S. Haupt, died yesterday morning in a hospital from heart trouble. Deceased had lived for twenty years in this county, and was 59 years old. Funeral services will be held this afternoon at 4 o'clock at the chapel of Overholser & Mills, corner of Grand avenue and Pico street. He was widely known among railroad men.

Funeral of J. B. McCullough.

The funeral of John B. McCullough was conducted yesterday afternoon at the Independent Church of Christ, attended by a large concourse of friends, the members of Southern California Lodge of Masons in a body, and a detail of Knights Templar. McCullough died on Sunday last at his home on West Eighteenth street, at the age of 63 years. He leaves a widow to mourn his loss. He at one time lived in Orange county, and many persons from that section attended the funeral at Rosedale yesterday, attending to the casket in which he was held by his neighbors.

Against School Book Stores.

The Merchants and Manufacturers Association yesterday filed a protest with the Board of Education against the proposed scheme of placing a book store in the Polytechnic High School. The communication represented at length the injustice that such a movement, once begun, would do to the merchants of the city and this part of the State. "In fact," it read, "many of the public schools throughout Southern California are suffering the result of the sale at the Polytechnic High School to put it in practice in the different cities in this section." As the proposition had already been given up, the real object of the protest was to prevent the granting by the Board of Education of similar requests that might be made in the future.

Tulare County Orange Land.

2000 acres. See ad. Country property. Both. BECHAM'S Cold Cream, guaranteed cure in 48 hours. Sun Drug Co., right stores.

BREVITIES.

Ladies: The Sample Shoe Shop sells all their shoes for 50 per cent. Today they received a lot of ladies' fine shoes made by Grey Bros. These shoes sell for 25 and 35 per pair. They are all strictly better made. Come in both high and low shoes and in all leather. Among them are some extreme novelties in styles. There are all sizes from 5 to 12 among these sample shoes. THE PUBLIC SERVICE.

SUMMARY OF THE DAY.

A meeting held in the Mayor's office yesterday morning resulted in the following summary of the day's work:

Mayor Harper has inaugurated a campaign to increase the city's revenue \$100,000 a year through the medium of additional license taxes.

Non-Partisan members of the Council assured the Board of Public Works yesterday of their hearty cooperation in all matters affecting the Owens River enterprise.

Members of the Council are undecided whether to call a special election for fire bonds or to take the \$400,000 necessary from the current revenue fund; they have discovered that they cannot issue both the fire bonds and the Owens River bonds until there is an increase in the city's assessed valuation.

Difficulty was expressed in getting intelligible answers from witnesses in the suit of John Baxter against his mother, which was on trial in Judge Wilbur's court yesterday. William Baxter was fined for contempt. Argument will be heard tomorrow.

Another chapter in the history of the Mount Gaines Gold Mining Company was written yesterday when a complaint was filed asking for the appointment of a receiver.

Doctors disagreed as to the nature of the illness of W. T. Wilson, who is on trial on the charge of murder.

In her suit for damages against the Record Publishing Company, Mable Erwin was awarded yesterday \$10,000.

Alexander Williamson, who did not deny, yesterday in the Police Court, shooting of his sister-in-law, was held for trial in the Superior Court.

Mrs. Ross, who says she is the widow of the burglar who was shot by Patrolman Hoover, was in the Police Court yesterday as the result of a raid on a disorderly rooming-house on South Los Angeles street.

AT THE CITY HALL.

MUST HAVE NEW FIRE HOUSES.

ASK COUNCIL TO CALL SPECIAL BOND ELECTION.

Inspector Porter asks immediate action. Must be taken or insurance companies will withdraw. Legislators may make provision for taking money from current revenue fund.

Members of the Council are impaled on the horns of a genuine bond dilemma.

Acting on the advice of Dillon & Hubbard, New York bond experts, the Advisory Board for the Owens River project has recommended that the city vote \$2,000,000 in water bonds. A committee representing the civic bodies has recommended that \$400,000 in bonds be voted at once to build and equip fire-engine houses. The city's bond limit under the State law is \$20,000,000; of this, \$7,000,000 is now expended, leaving a balance of but \$13,000,000.

If the city votes the water bonds now it cannot issue the fire bonds. The bond attorneys have recommended that the Owens River bonds be voted as a single issue; if the fire bonds are issued first we cannot vote the \$2,000,000 water bonds.

The directors of the Chamber of Commerce formally endorsed a proposal yesterday for the immediate issue of \$400,000 in bonds to provide more adequate fire protection for the business district.

Yesterday morning committees representing the Chamber of Commerce and the Merchants and Manufacturers' Association, friends in the Mayor's office to discuss fire protection. Inspector Porter of the Fire Underwriters' Association told the Mayor and the representatives of the civic bodies that Los Angeles is in imminent danger of a disastrous conflagration. He said that in ten hours the whole business district could be wiped out, and that it would require millions of money and several years of time to replace the lost.

Porter said that a number of insurance companies have withdrawn from the local field and that several others are preparing to withdraw. He thinks that this will lead to a sharp advance in insurance rates, unless the city takes immediate steps to secure better fire protection.

Fire Chief Lips said that his force is too small to handle a big fire. He asked for more men, more fire houses and more machinery. The Chief recommended the following list of houses and equipment, checked and approved by Inspector Porter:

Cost of engine house, \$100,000. Cost of engine, \$10,000. Cost of hose, \$5,000. Cost of truck, \$5,000. Cost of pump, \$5,000. Cost of water, \$5,000. Cost of fuel, \$5,000. Cost of labor, \$5,000. Cost of maintenance, \$5,000. Cost of depreciation, \$5,000. Cost of interest, \$5,000. Cost of taxes, \$5,000. Cost of insurance, \$5,000. Cost of other, \$5,000. Total, \$150,000.

Cost of engine house, \$100,000. Cost of engine, \$10,000. Cost of hose, \$5,000. Cost of truck, \$5,000. Cost of pump, \$5,000. Cost of water, \$5,000. Cost of fuel, \$5,000. Cost of labor, \$5,000. Cost of maintenance, \$5,000. Cost of depreciation, \$5,000. Cost of interest, \$5,000. Cost of taxes, \$5,000. Cost of insurance, \$5,000. Cost of other, \$5,000. Total, \$150,000.

Cost of engine house, \$100,000. Cost of engine, \$10,000. Cost of hose, \$5,000. Cost of truck, \$5,000. Cost of pump, \$5,000. Cost of water, \$5,000. Cost of fuel, \$5,000. Cost of labor, \$5,000. Cost of maintenance, \$5,000. Cost of depreciation, \$5,000. Cost of interest, \$5,000. Cost of taxes, \$5,000. Cost of insurance, \$5,000. Cost of other, \$5,000. Total, \$150,000.

THE FEDERAL COURTS.

LESLIE JURY DISAGREES.

ALLEN PLEADS GUILTY ON FIVE COUNTS.

New Trial of Woman is Set for Next Tuesday, in Order to Expedite Final Settlement of the Case—Man Cannot Receive Less Than Five Years.

The first trial of Nada Leslie, in the United States District Court, came to a rather tedious close late yesterday afternoon. The jury disagreed, and the case was discharged by Judge Wilbur.

The woman is charged with having attempted to defraud the government; by means of money orders fraudulently issued.

The evidence in the matter was all in day before yesterday, and after argument by the attorney yesterday morning Judge Wilbur briefly charged the jury and they took the case under consideration, at 11:30 o'clock.

They wrangled from that time until 5 in the afternoon, at which time they announced that they would be unable to come to a verdict.

To expedite the case and perhaps because the defendant is a woman—Judge Wilbur set aside some other matters on the docket, and the second trial is called for next Tuesday.

The case of Leigh Allen, who was a number of times partner with the Leslie woman in her exploits at the El Monte postoffice, took a new turn yesterday.

Allen pleaded guilty on five of the charges against him, namely the forging of the postal money orders.

A number of embroiled charges still hang over him, but these may be dismissed, so that he will receive sentence only on the counts to which he admitted guilt.

He is not yet decided as to his course in this matter.

He has been in the prison less than five years as it is a year being the minimum on each count.

AT THE COURTHOUSE.

BREVITY IS NOT HIS BEST CARD.

VERDICT WITNESS PAINS COURT AND COUNSEL.

Baxter Case Progresses Slowly Because of Curiously Intangible Favored Son, Testifies in Suit of His Brother Against His Mother.

In Department Eight of the Superior Court yesterday the Baxter case unfolded itself, and a peculiar coil it proved. The mother, John and William, gave testimony, both displaying discomfort at their unaccustomed situation. In spite of great difficulty in getting intelligible answers from the witnesses, the salient facts apparently were revealed.

John Baxter, who is suing his mother, Mrs. E. M. Baxter, for \$20,000, alleged to have been paid for her by him, was living in his mother's house at the time the greater part of this sum is said to have been spent. It is claimed by the defense that the payments, if made, were for his own benefit.

Three years ago Mrs. Baxter was stricken with paralysis. Later John Baxter, with his family, left the house. After some months, it appears, William Baxter assumed the care of his mother. The brother, it was alleged, had her property, consisting of an orange grove near Monrovia, to him. He was alleged to have sold it, and he brought out against his mother.

Argument will be heard tomorrow before Judge Wilbur.

When William, the alleged favored son, proved a smart, expatriating witness to his own and opposing counsel and to the court. Even a fine of \$10 for contempt was imposed for employing terms too emphatic in one of his excited explanations, did not serve to impress him with the fact that there was a limit to his freedom of speech.

His brother, John, was on the stand, William wished to contradict his testimony.

When William was being cross-examined, the question was asked: "Was there an agreement between you and your mother that the property should be divided to you?"

"Well," responded the witness excitedly, "at my father's deathbed he said it would be better to deed everything to me, and my mother said she wished she had when—"

The flow of verbiage was checked finally, and it was learned that there had been such a verbal agreement two weeks after he began to care for his helpless mother. Father was brought out to the stand. The witness testified that he had been in that cook kitchen.

"Well, I had my own family to attend to, and my business was a night and day job, and there are six in my family," he began when the attorney for the defense shook a pencil at him in peremptory though futile command for silence. The man seemed to know nothing except that he was being asked questions which worried him, and he kept on with his curious efforts to explain.

In speaking of the property he had come into possession of, he said: "The trees died off."

"Well, there wasn't much water. I've seen lots of times there—"

"When did they die?"

"Well, they withered away and didn't produce no fruit, and—"

"When did they die? Answer the question!"

Allen demanded aggressively of Judge Wilbur, who smiled a pained smile and shook his head. The witness turned back to the witness and tried again.

"Well, lots of times never done any good after, and some of them had to be taken out and planted over, and—"

From all this it appeared that the trees had not died, so the question was not pressed any further. Brother John had received from their mother, compared to what he may have done for her, that William's excitement caused him to use terms improper in court, and the fine resulted. The \$10 was paid.

RECEIVER ASKED. MORE MT. GAINES HISTORY. A complaint was filed yesterday in the County Clerk's office asking that a receiver be appointed for the Mt. Gaines Consolidated Mining Company and that the present officers and directors of the company be ousted from control of the property. It is charged that the officers and directors have neglected the property, which consists of a valuable mine in Mariniposa county, while embroiled in bitter quarrels among themselves over the management.

In the Superior Court of the county no less than seven cases are pending in which officers or directors of this company appear as plaintiff defendants. These cases are filed in support of the claim of disassociation which is said to have prevented the proper working of the mine.

The mother, John and William, gave testimony, both displaying discomfort at their unaccustomed situation. In spite of great difficulty in getting intelligible answers from the witnesses, the salient facts apparently were revealed.

John Baxter, who is suing his mother, Mrs. E. M. Baxter, for \$20,000, alleged to have been paid for her by him, was living in his mother's house at the time the greater part of this sum is said to have been spent. It is claimed by the defense that the payments, if made, were for his own benefit.

Three years ago Mrs. Baxter was stricken with paralysis. Later John Baxter, with his family, left the house. After some months, it appears, William Baxter assumed the care of his mother. The brother, it was alleged, had her property, consisting of an orange grove near Monrovia, to him. He was alleged to have sold it, and he brought out against his mother.

Argument will be heard tomorrow before Judge Wilbur.

When William, the alleged favored son, proved a smart, expatriating witness to his own and opposing counsel and to the court. Even a fine of \$10 for contempt was imposed for employing terms too emphatic in one of his excited explanations, did not serve to impress him with the fact that there was a limit to his freedom of speech.

His brother, John, was on the stand, William wished to contradict his testimony.

When William was being cross-examined, the question was asked: "Was there an agreement between you and your mother that the property should be divided to you?"

"Well," responded the witness excitedly, "at my father's deathbed he said it would be better to deed everything to me, and my mother said she wished she had when—"

The flow of verbiage was checked finally, and it was learned that there had been such a verbal agreement two weeks after he began to care for his helpless mother. Father was brought out to the stand. The witness testified that he had been in that cook kitchen.

"Well, I had my own family to attend to, and my business was a night and day job, and there are six in my family," he began when the attorney for the defense shook a pencil at him in peremptory though futile command for silence. The man seemed to know nothing except that he was being asked questions which worried him, and he kept on with his curious efforts to explain.

In speaking of the property he had come into possession of, he said: "The trees died off."

"Well, there wasn't much water. I've seen lots of times there—"

"When did they die?"

"Well, they withered away and didn't produce no fruit, and—"

"When did they die? Answer the question!"

Allen demanded aggressively of Judge Wilbur, who smiled a pained smile and shook his head. The witness turned back to the witness and tried again.

"Well, lots of times never done any good after, and some of them had to be taken out and planted over, and—"

From all this it appeared that the trees had not died, so the question was not pressed any further. Brother John had received from their mother, compared to what he may have done for her, that William's excitement caused him to use terms improper in court, and the fine resulted. The \$10 was paid.

RECEIVER ASKED. MORE MT. GAINES HISTORY. A complaint was filed yesterday in the County Clerk's office asking that a receiver be appointed for the Mt. Gaines Consolidated Mining Company and that the present officers and directors of the company be ousted from control of the property. It is charged that the officers and directors have neglected the property, which consists of a valuable mine in Mariniposa county, while embroiled in bitter quarrels among themselves over the management.

In the Superior Court of the county no less than seven cases are pending in which officers or directors of this company appear as plaintiff defendants. These cases are filed in support of the claim of disassociation which is said to have prevented the proper working of the mine.

husband, Mrs. Williamson sat in the courtroom yesterday, her face twitching nervously. The daughter, Mrs. Van Lian, told how she saw her stepfather shoot at her husband. Van Lian himself told of the shooting, which he said, took place in the back yard. Van Lian and a notary were there, the latter just about to enter the house when the shooting occurred. Williamson came out on the porch and began shooting. He followed Van Lian as the latter fled before him.

The defendant did not take the stand in an attempt to contradict the testimony of the witnesses. The jury was sequestered in the jury box. The case was heard by Justices Chambers and \$100.

Charles Robinson's 6-year-old son gave the testimony which sent his father to jail for thirty days yesterday. In the Police Court yesterday, the child was charged with having committed a crime of drunkenness and petty criminality.

Stadler's Wife and Child. Frank Stadler let the court secure a jury to try him and then pleaded guilty in the Police Court yesterday. His offense was keeping a blind pig. The case was heard by Justices Chambers and \$100.

Buy Your Shopping Bag Today

Two sales of leather bags today—articles so conspicuous by their very nature that it's impossible to be well-gowned with a shabby one. At \$4.25 we shall sell every bag in stock whose value is between \$8 and \$7.50, at \$9.50 every one between \$10 and \$25. That this presents a wide range will be evident to any woman who knows the elegant assortments carried by this store. All good styles, of course, we haven't any others, at any price.

Novel Trimmings For Spring Gowns
Dress trimmings by the yard form a bewildering and intricate line of exquisite loveliness this spring, with a difference decidedly away from the output of previous years. Gathered as they are, from the best of European and domestic makers, the selection is the most complete in the history of this house.

Appliques of silk, in embroidered floral patterns, on gold or silver gossamer cloth, are exceedingly handsome, hosts of hand-made trimmings and Persian bands are here, irregular edges for vestings, in all color combinations it's possible to conceive of. And in picot edged gold finishing braids we've the only line that's shown hereabouts.

The Newest Silk—Marquisette
It is not only the varieties shown here, but the exceptional richness of our imported silks which earn for this section the distinction of being complete in every detail. We select for today's mention one of the very newest—Marquisette.

Shown in striped grounds of graduated width, 44 inches wide, \$2.

In narrow strips effect light blue on white backgrounds with spots raised in heavier weaves, \$3.25.

Shown in shadow checks and stripes, white and colors, at \$2 and \$2.25 a yard. Also obtainable in plain shades of every hue.

Hydegrade Manchester Galatea
...20c Grade, Here 16 2-3c...

The one cloth that will stand the severe test of wear to which children subject their clothes is Hydegrade Manchester Galatea, one of the several Hydegrade textiles now so widely advertised in leading magazines. Iron-like durability and permanent beauty of appearance were never so perfectly combined as in this fabric. For outing suits and shirtwaists it has no superior, and while it sells all over the country at 20c a yard, we offer our splendid line of blue, black and grey shepherd checks, stripes and plain colors with polka dots, exclusive patterns, for 16 2-3c.

HIGH SCHOOL PLAYERS SCORE A TRIUMPH.

The Private Secretary, and the four girls who appeared in the Senior B play yesterday. Reading from left to right, above are: Edith Salyer, Harry Rogers, Alma Murphy; below: Geraldine Fitzgerald and Rebecca Lee Dorsey.

The senior B's of the Los Angeles High School scored a signal triumph at the Belasco yesterday afternoon for their presentation of a new, dramatic play, "The Private Secretary."

The most bored, blasé frequenter of amateur efforts lost his cynicism for the nonce and laughed at the rattling situations with the gusto of the school-boy, and girl.

"The Private Secretary," with some of the naughtiest cut out, graced a hit here and snipped a hit there, with innocent soda pop substituted for the whiskey and brandy nominated in the original manuscript, held laughter and glee from beginning to end, and exhibited no little ability on the part of the performers.

The little role of private secretary is a caricature of an Englishman who has been engaged to go to a country place and perform the duties of a private secretary. Around him centers the most absurd and complicated series of farcical happenings.

Harry Rogers, leader of the Los Angeles High School military organization, and president of the senior B class, sustained this play from beginning to end, ending himself to the incomparable "stiffness" of the character with positive genius for the ridiculous.

The honors of the cleverly-given play were about evenly divided between Rogers and Geraldine Fitzgerald, who took the part of the cholerick Englishman just returned from India and troubled about his liver. He makes the absurdity of a person for his own nephew and one of the funniest hits of all was when he first catches sight of the private secretary.

Geraldine Fitzgerald was fine in the role of the maiden lady addicted to spiritism. Her play was a fetching portrayal, and the two butterfly girls, represented by Edith Salyer and Rebecca Lee Dorsey, were very natural and pretty. Doug-

las Montgomery and Don Goodwin were acceptable as the gay young blades who cause much of the trouble. An exceedingly comic touch was given by Charles Mills, who took the part of the cockney tailor of Bond Street with aspirations toward moving in good society. Harold Paulin represented the man of the country manor, and the rest of the cast included Walker Layne, Fred Johnson, and Albert Kipper.

The house was crowded with teachers, friends and pupils of the school. The senior B colors of yellow and white in the simple uniform of boys and girls were effective, and the penance of white and gold were as much in evidence as the yells and the claps of the play.

The Star and Crescent clubs opened the exercises of the afternoon. Walter Dugan, president, called to order, and Agnes Brown read the minutes. At the address by Harry Rogers, president of the senior B class, followed the play, and the response was by Howard Krueser, president of the senior A class.

Star and Crescent pins were presented to twenty-five members of the graduating class.

At the close of the affair a graceful attention was shown to Mrs. Hough, who had been an interested spectator. The senior B class presented to her a fine crayon portrait of Principal Hough, artistically framed.

In thanking them she promised her intercession with the principal if ever that class should have need of it. Today the senior B's will have their innings at the Burbank, and great plans for their class play, "Janet Meredith," as well as the subsequent banquet at Levy's, are under way.

Needless, yesterday turned over to the Santa Fe Company the completed Santa Fe hotel at Ash Fork. The building has been under construction for nearly a year and has cost about \$100,000.

There is a persistent rumor along the Santa Fe line that the locomotives of the Arizona division will soon be changed back to coal burners. It being found easier to secure coal from the Gallup fields than oil from California.

BEGIN THE SURVEY.
FOR NEW SAN DIEGO ROAD.
YUMA (APR.) Feb. 5.—A party of twelve surveyors, under the leadership of M. H. King, has arrived in Yuma from San Diego and has commenced the survey of the eastern end of the new San Diego and Yuma railroad. The work to be done at this end is considered one of great difficulty, as a number of alternative sites for crossing the Colorado river will have to be considered. It is probable that the Colorado will be crossed at Yuma, a short distance above the present Southern Pacific bridge.

E. F. Sanguinetti, a Yuma merchant and capitalist, has ordered machinery for an ice plant to be established in Yuma at a cost of \$25,000. The plant will have a capacity for eighty-five tons a day and will have storage capacity for 6000 tons of ice. The building will be of concrete. This new building is expected to be built in about five months and will be operated continuously. Its product being especially designed for the re-cleaning of fruit trains.

Deputy Sheriff Julio Martinez has been badly wounded in a running fight with one Juan Garcia, for whom a reward of \$200 is offered by the California authorities, he being wanted for the murder of Otilio Anahuta near Mecca last September. Hearing that Garcia was in hiding in the lower valley, near the Mexican line, Martinez and Ranger Frank Miller left Yuma Tuesday on the hunt. Near a fresh camp they discovered Garcia and a female comrade hiding in the brush. Upon summons of surrender, the man opened fire with a rifle. About the sixth shot struck Martinez in the right arm. The bullet was soft-nosed and the wound made was a terrible one. Miller was compelled to give up the chase in order to attend to his wounded companion, who was brought back by slow stages to Yuma. Garcia is a sort of professional bandit. In company with a Mexican woman, he is known to have committed at least two murders, one at Anahuta, a prospector, and another at Algodones.

Harry McPhaul, a well-known resident of Yuma, has returned to this city a self-confessed fugitive from justice, though the justice is of the Mexican variety. His crime consisted in shooting an Indian pony, because of a broken leg, sustained through a kick from another horse. The Indian who owned the pony objected to the humane act and had to be bought off for \$15.

Then McPhaul learned that it was a penal offense, under Mexican law, to kill a horse, with respect to any humane considerations. He says he made his escape across the Colorado just as Mexican officers detailed for his arrest were entering the camp.

William C. House died in the street in Yuma a few days ago, following a severe fit of coughing, which induced a fatal hemorrhage. The House was a late arrival from Riverside. Relatives reside at Livermore, Cal.

The sale of a mining property in the Salome mining district, when the cause of a marriage, J. W. Lind, one of the owners of the property for four years had been engaged to a young lady in San Jose, Cal. The prospective bridegroom was not well fixed financially.

The development of his mining claims necessitated his residence in a spot so removed from civilization that he hesitated to bring to it a bride. It was agreed between them that they should be married when the mines were sold. This was accomplished a short time ago, when the property was bonded by the Ironwood-Arizona Company and a substantial payment made thereon. A few days ago the couple were married at San Jose and they have returned to Arizona to make their home for a while at least at Salome.

The Only Genuine Bargain Event of the Season

FIRE SALE

All Other "Events" Fade Into Insignificance Compared with the Phenomenal Rush During This Great Sale

We Are Doing the Business of the City in Furniture, Carpets, and Draperies

BECAUSE the reductions genuine—the values unmatched.

BECAUSE the public has confidence in the integrity and fair dealing of this firm—one of the oldest established furniture houses in Los Angeles.

BECAUSE those who have bought have spread the news of this great money-saving opportunity. The liberal patronage during this sale is the sincerest compliment and the strongest evidence that the people of this city are aware that good furniture and low prices are always obtainable "Just over the line from High Rents and High Prices."

WARNING—Buy now if you want to buy at the low prices offered. The days of the sale are numbered and those who wait too long will lose.

It is amusing to note the insinuations of some "dead ones" who have a "furniture" sign over their door and "sore" because the big "fire sale" is the center of attraction and they have nothing to do but stand idly by and watch the throng of buyers visiting the fire sale daily. It is to laugh. Ha! Ha!

Compare the Prices, the Merchandise, the Values Match These Bargains in Rugs and Carpets if You Can

Nearly all of our spring stock of carpets and rugs had just arrived previous to the fire. These were undamaged by fire or water. There isn't a yard of carpet or a rug in the building that you would know had been in a building where there was a fire unless we told you.

But they will be sold at liberal discounts during the fire sale because this is a "fair and square" deal. The people who come here are in the habit of getting bargains and expect to get extraordinary bargains during this sale and no one has gone away disappointed.

444 RUGS NOW \$23—The well known Bigelow and Whittall Wilton velvet rug; 9x12-foot size; good assortment of desirable patterns. To close out during the fire sale, \$23.

\$27.50 RUGS NOW \$23.75—Bigelow and Whittall 9x12-foot body Brussels rug in up-to-date patterns never sold less than \$27.50. Fire sale price, \$23.75.

2112 ORIENTAL RUGS, \$24

\$24.50 RUGS \$19—The famous Roxbury rug known everywhere for their quality and beautiful patterns; 9x12-foot size. This sale \$19.

AXMINSTER CARPETS—A good variety of patterns (damaged, mind you) saved, laid and lined, per yard, \$1.00.

SAXONY RUGS.

8x9 feet at \$5.75
7-8 feet at \$5.00
6x9 feet at \$4.50

8x9 feet \$3.90
7-8 feet \$3.50
6x9 feet \$3.25

All other rugs and carpets are reduced. These are just a few of the many phenomenal bargains we offer.

LINOLEUM—Big assortment of patterns. Regular \$10 and 7x6 values at, per square yard, 25c.

Remember that you can buy anything in the store at liberal reductions. Damaged and undamaged goods must be sacrificed simply because they were here during the fire.

WILL NOT WORK WITH JAPANESE.

STRIKE CAUSED BY PRESENCE OF LITTLE BROWN MEN.

Mexican Mill Hands Quit Work When Members of Oriental Race Are Imported in Northern Arizona. Effort to Grab Only Grand Canyon Trail Blocked by Land Office.

SPECIAL CORRESPONDENCE OF THE TIMES.

PIMISCOTT (ARIZ.) Feb. 5.—There has been frequent necessity in the past few years to chronicle news of trouble between Mexican and Japanese laborers in Northern Arizona. The two races appear to have instinctive hatred of each other and clash whenever they meet in considerable numbers. Though the Japs have a high reputation for personal prowess and the Mexicans are generally esteemed as an offensive sort of individual, it is a remarkable fact that in every battle between Japs and Mexicans, the latter have triumphed, even though fewer in numbers. The latest episode of this kind happened during the week at Williams, where the Pacific and Marquette Lumber Company brought in a gang of thirty Japs for rough work in cleaning up the lumber yards. Though the officials of the lumber company made it plain that the Japanese were employed only on a temporary job, the balance of the past week's work was all of them Mexicans, promptly struck, necessitating the closing down of the immense plant. It was explained that there was no objection to the wages received or to the treatment given the employees, but not a Mexican could be induced to accept employment when he had to work beside one of the little yellow men. The mill management accepted the situation and the Japs, and the next morning the saws were running again and all was serene though the yard is badly in need of a cleaning up. The Japanese still are in Williams, hoping for a job on the grade of the Santa Fe.

LAND DECISIONS REVERSED.

The United States Land Office at Washington has reversed the decision of the Arizona Land Office in two protests, involving land at the head of the Bright and Grand Canyons. The local land office had awarded the ground to Ralph Cameron, who claimed it as mining claims and for mill sites, as well as the land and water at Indian Gardens, about midway down the trail. Cameron applied for patent to the claims. If this had been granted, it would have given him absolute possession of the Bright Angel trail. It is now understood to be operated in his interest, though ostensibly under a lease given to another individual by the Board of Supervisors of Coconino county, of which board he is a member.

MISSING STOCKMAN FOUND.

There was much anxiety last week over the absence of Ted Bishop, a one-legged stockman, whose horse returned riderless to Ash Fork, a couple of days after Bishop had started for a visit to a ranch about a half day's journey away. It was feared that the stockman had been injured and probably would be found frozen to death, so searching parties were organized, which later found their friend very comfortably established at a ranch fifteen miles from Ash Fork.

FRESH COTTON PICKINGS.

Carl Starkman, a Jerome merchant, has been arrested in Prescott for issuing worthless checks. It was a case of too much flower and of a desire to gamble on small capital. It is understood that the checks will be made good by relatives and that the prosecution will be dropped.

A disease which has caused considerable mortality among cattle in the Kirkland Valley district of Tazawal county is believed to be "big jaw." An investigation has been ordered by the Agricultural Department.

CAN SIDETRACK CITY.

(Continued from First Page.)

It is to Sacramento, where there are already two or more good roads bills in committee, and Chairman A. A. Butler of the Good Roads Conference expects to appoint one or more members as a committee to carry the bill to Sacramento and push it before the committee.

F. W. Blanchard is chairman of the Legislative committee, and associated with him are such well-known lawyers as Chief Deputy Dist. Atty. Hartley Shaw, Assistant City Attorney Emmett Wilson, ex-Judge John D. Wynn and others. They believe that when this bill is presented to the State Legislature it will be the most comprehensive and practical bill of the kind which the legislators will have occasion to act upon.

Chairman Butler, who has just returned from Sacramento, is enthusiastic over the outlook for good roads legislation, and has interested Gov. O'Connell in the matter, so that the Governor is also an enthusiast and will do all he can to forward the proposed bill. Mr. Butler states that every one seems to be waking up to the necessity for better roads and better laws for their building and preservation.

Invitations have been sent to representative civic bodies in other Southern California counties to participate in the conference for good roads to be held here next Saturday morning in the Chamber of Commerce. At this meeting it is proposed to form a permanent organization, and the enthusiastic cooperation of all the other counties is looked for.

MINES AND MINING.

WILL DREDGE BUTTE CREEK.

FIVE COMPANIES OF ANGELES TO WORK IN NORTH.

New Company to Exploit Inyo County Copper-Silver May Be Erected by Local Corporation in Same Region—Local Men Expect Big Success in Siskiyou.

On Butte Creek in the county of Inyo five companies of Los Angeles are about to carry on extensive dredging operations within a few miles of Oroville. George Kirby, a mining engineer who for a number of years has been in that region, some time since secured a large tract along Nation River and a year ago formed a syndicate here to work it. Later, however, this plan was changed and part of the land disposed of to others, who organized three companies, while Mr. Kirby and associates formed three others, viz: The Gold Bar Dredging Company, Nos. 1, 2 and 3. The second of these is about to pay to stockholders a dividend amounting to 40 per cent on the money invested as a result of a sale of the land.

The Gold Bar companies have now machinery on the ground for beginning work, except the electric motor, which was shipped from New York on January 1 and has not yet arrived. Power is to be obtained at a flat rate of \$4 a month per horse power from the Bay Valley Power Company, three of whose lines cross the property.

The company has both dredging and quartz properties. The former consist of 285 acres which Mr. Kirby says will yield not less than 20 cents a yard, and the machinery is capable of handling 2000 yards a day. The latter are on the mother lode.

Mr. Kirby is general manager, and interested in the corporation are D. B. Houston, C. W. Brett, D. V. Henry, C. F. Scruggs, W. R. Cooper and a number of other local men. The capital is \$200,000, of which \$175,000 is held as reserve treasury stock.

Other companies organized to engage in operating in this region are the Golden Butte, Butte Creek, Little Butte and the Forks of Butte Creek Gold Dredging companies. All of these are expected to begin operations very soon. With the exception of the last named these corporations have their offices together in the Fay building, while the last is in the American National Bank building.

The officers and directors of the Golden Butte Dredging Company are: L. L. Bowen, president; Henry Higgin, vice-president; Walter L. Krog, treasurer; A. A. March, secretary; C. L. Martin, A. J. Culver and D. M. Shanks. Of the Forks of Butte Creek Gold Dredging and Mining Company the officers and directors are: W. C. White, president; G. A. H. Sprague, vice-president; J. F. Mathes, secretary; Edward Stanton, S. J. Mathes and A. W. Plummer.

The Inyo County Consolidated Copper Company has been formed with G. G. Lange, president; A. J. Lange, San Francisco, vice-president; A. J. Gordon, secretary; F. B. Gordon, general manager, and A. N. Francisco, treasurer. It has fifteen claims located four and a half miles from Oroville. Ten of these form one group. The owners say they have forty feet between walls on the surface, and assays run from \$4 to 17 per cent copper.

The Moccasin Mining and Smelting Company contemplates the erection of a smelter on its property in Inyo county shortly. General Manager F. B. Gordon is now in New York on business for the company.

The Bagdad Gold and Copper Company will shortly install power hoists on its property at Bagdad in San Bernardino county. A shaft is to be sunk to the 200-foot level.

The Ritore Gold Mines Company, composed of Los Angeles people, and of which T. A. Pullen, secretary of the Reed Crude Oil Company, is president, is working 150 acres of hydraulic land in northwestern Siskiyou county. This has been going on for two years, and a complete set of ditches, flumes, sluices and rock cuts, together with a sawmill, bridges and buildings necessary for operations have been installed.

Improved Wheat Food.

CHAMBER OF COMMERCE.
Consolidation Officially Indorsed.
Duty on Ripe Olives to Be Subject of Inquiry.

The Stanislaus Board of Trade will arrive in the city at 7:30 o'clock tomorrow morning—according to train schedule—and will remain in the city two or three weeks. Tomorrow night they will be entertained at a reception to be given by the Chamber of Commerce.

At the regular meeting of the Chamber of Commerce, yesterday afternoon, a set of resolutions strongly indorsing the proposed consolidation bill now before the Legislature was adopted.

Minor action was taken on a number of other things, and a communication from the State Board of Trade was considered in reference to the placing of ripe olives on the duty list. The State board sent a lengthy telegram to Senator Perkins, asking that this be brought about, and the local Chamber was asked to take up the matter with Senator Flint. The Committee on Agriculture will investigate at once.

New members, admitted yesterday, are Still, Bell & Co., E. H. Spencer, Marshall Stinson, Ernest Wilson, G. M. Wooster & Co., E. C. Wilhelm, Frick Brothers, Henschel, Bulkeley & Co., U. S. Gove & Co., Ely-Gilman, Fruit Co., A. G. Gardner, Cohn-Asher Co., W. F. Chase and Boos Brothers.

FANCY MOUNTAIN FRUITS

THE OIL INDUSTRY.
GOVERNMENT INVESTIGATES.

*Land Inquiry May Involve
Elkhorn Locations.*

*Associated Has Thousands of
Acres Believed Rich.*

*No Drilling, but Playhouses
Built of Gypsum.*

For several weeks there have been rumors of action to be taken at Washington in regard to locations on public lands in this State. Despatches of the last few days confirm this, but give no details further than that the investigation to be started will cover mineral and other lands from Sitka to San Diego.

About three months ago a representative of the Interior Department arrived in Bakersfield and started on a trip through Sunset and Midway into the vast stretch of territory known as the Elkhorn and Coalinga districts, lying between the range of mountains west of Sunset and east of the range in San Luis Obispo county that separates the interior from the coast. That oil exists in this region is a fact practically established, the only question being as to its extent. It has actually been found in paying quantities at one or two points, so it is generally understood, although those interested have little to say.

During 1904 the interest in this region became great, and a large number of locations were made by Bakersfield people, but no work was done. At the end of the time allowed, the locations were mostly permitted to lapse and the Recruit Oil Company (Associated) entered and placed blainet locations on everything in sight. Thousands of acres were thus secured and have since been held. No drilling appears to have been done, but the locations are of considerable value against any one who might attempt later ones of the same character. If actual drilling was started by another on the ground the case would be different, but no one seems disposed to try it.

BUILDING PLAYHOUSES.

The latest reports from the Elkhorn region confirm previous reports that it is widely the intention of the Recruit people to only use so-called discoveries of gypsum to hold the territory. While no drilling for oil is being done, a force of men was at work a few weeks since digging out series after series of steps on the hillside and piling the gypsum in a manner that it declared to resemble nothing so much as the construction of a child's playhouse. None of the gypsum is being shipped, nor could it be at anything approaching a profit. There are differences of opinion as to the quantities of gypsum in that territory.

At present, however, there has been no drilling on this land, so it is not of record on what ground it is to be eventually claimed, and, of course, it may be that later wells will be drilled regardless of any present intentions. At the first of the year numbers of guards were sent out to patrol the territory to prevent any possible attempt at jumping, but nothing of the sort occurred.

The lands claimed by the Recruit are about ten miles from north to south and five from east to west. Oil of gravity is said to have been found in small quantities in a very shallow well dug by a Frenchman some years ago on section 22-31-21. This is on the land which the Recruit has blanketed.

The Interior has also taken up large tracts in the same region. Some of this has been purchased, it is understood.

On section 22-31-21 the Crocker-Woolworth Bank people have sunk a well, but to what depth is not known. They have oil of 25 gravity, according to the best reports, and there is said to be no doubt about the validity of their locations whether or not there is any as to the others.

MIDWAY GYPSUM LOCATIONS.

The matter of gypsum locations has been before the United States Land Office upon filings by the Chandler & Canfield Midway Oil Company at Midway, which properties have now been transferred to the Santa Fe Railroad. The locations were accepted and patents issued without opposition. On one location the Register at Visalia specifically sustained the gypsum locations in a contest brought by Bakersfield people, who claimed the land as agricultural, an absurdity so manifest as to cause the Register in his decision to declare that it could not "be taken seriously"; it being but an alkali waste. This case was never appealed to Washington. So far as can be learned there has been no serious attempt to question the gypsum locations. The Midway holdings are fully stated, but it seems probable that there will be question raised in the future when similar cases come up.

The Washington dispatches state that the President proposes to suspend filings until they can be passed upon by a special agent.

HOMESTEADING DEVIL'S DEN.

In the Devil's Den country, in northern Kern county, large tracts have been taken up under homestead claims which were the subject of investigation by the government agent recently. It is intimated that these are being made in the interest of the Western Oil Company, headed by the brothers of San Francisco, who in former years maintained a close guard over much of this territory.

STATEMENTS OBTAINABLE.

Most of the officials of the Associated were out of the city yesterday, and Treasurer Burton E. Green, the only one who could be found last night, stated that he knew nothing of the matter. A similar statement was made by President Stewart of the Association. All are reluctant to discuss reports in advance of more detailed information.

RICE RANCH MEETING.

The Rice Ranch Oil Company held its annual meeting Tuesday night and unanimously elected the following officers: Thomas Hughes, president; Robert D. Wade, vice-president; Dr. Anderson, Hayward, treasurer; Charles F. Bicknell, secretary. The directors were re-elected.

The company has contracted with Union Oil Company for the delivery of 5,000 barrels from its Santa Rita properties at 20 cents. The thirty dividend payable on February 1st will be 2 per cent, instead of the 2 cent, paid for January.

ASOLINE AND CENTRIFUGAL.

Ernest H. Wilcox, an engineer and expert now of this city, but recently the employer of the Associated at the River, gives the following statement to The Times in reference to the asoline and centrifugal tests, over which there is a controversy between

Hunyadi Janos

**Best Natural
Laxative
Mineral Water**

biliousness
and stomach
troubles.
Bottle glass
on arising

CONSTIPATION

the combine and the Coalinga producers.

"The gasoline method is simplicity itself. A graduated glass is used and into it poured fifty cubic centimeters of gasoline and then the same amount of the oil to be tested. The mixture is then shaken thoroughly and set aside for twenty-four hours for the sediment to settle. At the end of this time the water and sediment have settled to the bottom and the reading is taken. If one cubic centimeter, for instance, is found, this coming out of the fifty cubic centimeters used, represents 2 per cent, of its volume. Whatever reading is found is doubled and thus the true percentage value of the foreign matter determined."

"The centrifugal method, on the other hand, employs a rapidly revolving machine to precipitate the foreign matter more quickly and so save the delay of twenty-four hours."

"It must be obvious that neither test, conducted fairly, can precipitate more water or sediment than was contained in the oil to begin with, so that it necessarily follows that the test which delivers the greatest amount of foreign matter is the one that more nearly approximates the truth."

"The all probability the centrifugal tests referred to at Coalinga were conducted hastily, without giving the foreign matter time to settle. The chances of this being the case with the centrifugal method are necessarily greater than with the gasoline test on account of the rush with which it is done."

"To the contention that was raised by some producers at Coalinga that the centrifugal method compressed the sand so as to reduce its volume, Mr. Wilcox said that even if this were true as to the sand contained in the oil, it would not affect the water, so that the practical results would be the same. He suggests that the producers have tests made by some disinterested person to see what results are found."
